

## TECH RIDER | LIVE

Better Call Stefan +41 79 772 56 81 | [stefan@erhalder.com](mailto:stefan@erhalder.com)

Please note that Erhalder uses Ableton Live and therefore will need either easy access to the back of the DJ mixer or a working spare cable wired to the dj mixer.

If it's not possible to supply any of the following please contact me +41 79 772 56 81 asap.

- Dry Space 1.2m x 0.8m for laptop and controllers, solid table.  
Clean and accessible 30min before playtime.
- One high quality DJ Mixer, fully working
- One power plug, easy accessible
- At least one quality monitoring speaker to be controlled from the DJ Mixer
- 1 x Stereo Jack (TSR) cable, tested and wired to the DJ mixer
- Sound check is optional – line check should be possible before playtime

Thanks for your support!

Stefan
